About EdCity

Hong Kong Education City (EdCity) provides a one-stop professional education portal with information, resources, interactive communities and online services. With the vision of 'Actualising Future Ready Education', EdCity continuously develops and introduces new services since its establishment, promoting and supporting the adoption of eLearning and innovative education for all schools in Hong Kong

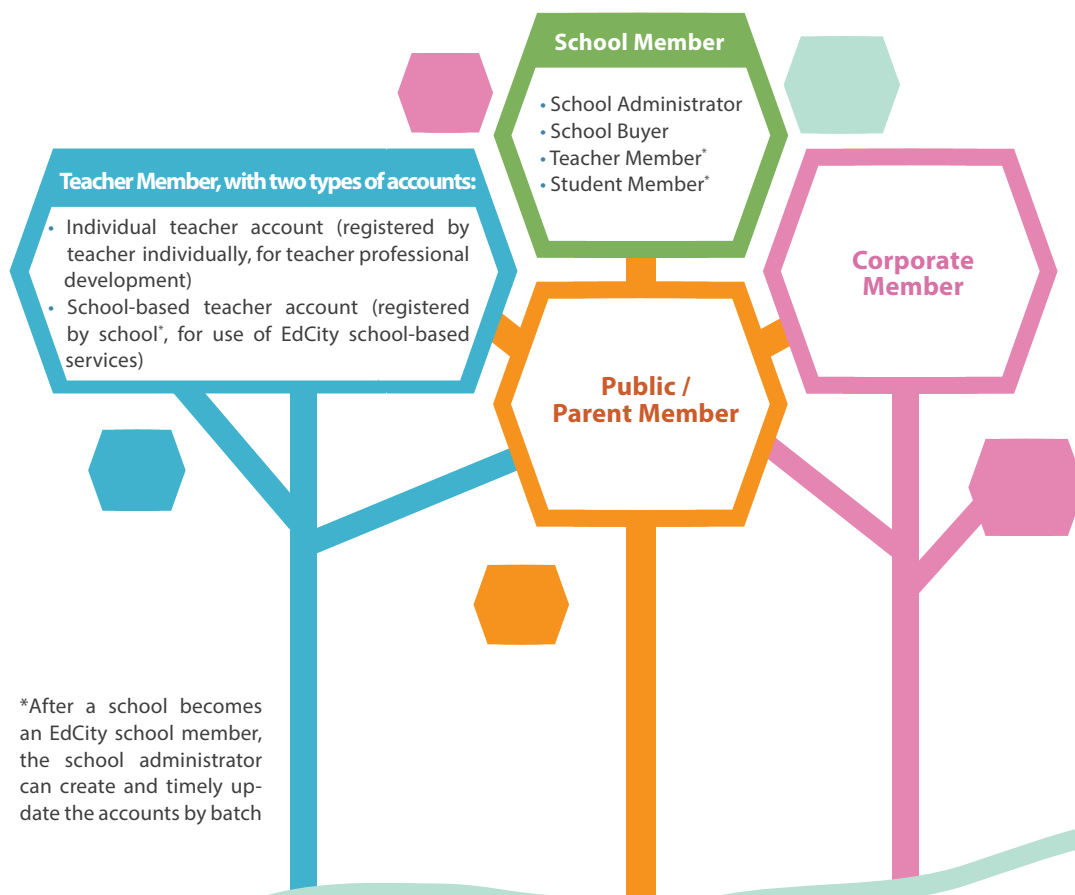

Developing Quality Online Services across the Region

- Facilitate teachers' collaboration and exchange of educational resources, building a professional community
- Encourage students to make effective use of interactive eLearning platforms and develop self-directed learning habit
- Empower parents to nurture children's whole-person development and lifelong learning

Connecting with Industry Partners

- Collaborate with parties in the field of ICT and / or Education
- Promote industry exchanges and expand business opportunities

EdCity Membership

Bridge between Industry Partners and Schools

Services and Benefits

- Learn about collaboration opportunities with EdCity and keep abreast of market updates
- Leverage EdCity's free marketing channels, including 'Partner Events' on our home page and 'Event Calendar'

Collaboration Opportunities

Learning, Teaching and Assessment Resources

- Provide question banks, eLearning resources and tools for free trial, use or bulk purchase

Professional Development

- Demonstrate education products or services; co-organise seminars and workshops to share strategies and experience

eReading

- Introduce books, provide previews and digital rights to produce eBooks for school or individual subscription

Student Data Exchange Platform and Single Sign-on

- Secure access of student data via standardised platform; adopt single sign-on service to simplify school's administration process of managing accounts and multiple online platforms

WiFi Authentication and Testing

- Co-support schools to manage wireless network

Types of Partnership

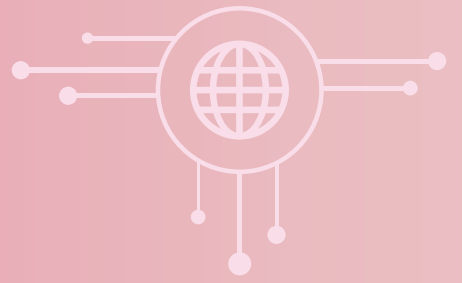

- Support an activity or a campaign
- Jointly organise an activity or a campaign
- Jointly develop a long-term project

Join Us

Corporate member application is open to:

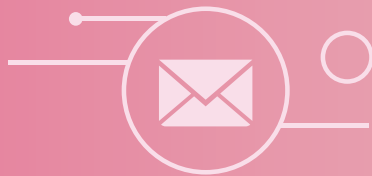

- Government bodies
- NGOs
- Educational associations
- Organisations in the field of ICT and / or education

Account Management

Riding on the comprehensive EdCity membership system and network infrastructure, schools can easily manage student and teacher accounts, enable easy access to multiple online platforms, manage WiFi network authentication and enjoy diversified school-based and student self-learning platforms

Member Benefits

 All Member			
<ul style="list-style-type: none"> • Enjoy 900+ free eBooks and 9,000+ books with previews • Participate in free themed seminars, workshops, etc. 			
 Teacher Member	 School Member	 Public / Parent Member	 Corporate Member
Individual Teacher Accounts <ul style="list-style-type: none"> • 1,800+ professional development videos • 12,000+ learning and teaching resources • Register Microsoft Office 365 Education account for free 	School Administrators <ul style="list-style-type: none"> • Create teacher and student accounts specifically for the schools • Easily manage WiFi network and teacher / student accounts with EdCity WiFi authentication and single sign-on service 	<ul style="list-style-type: none"> • 1,400+ parenting and education-related articles and videos • 1,200+ learning games 	<ul style="list-style-type: none"> • Promote via 'Partner Events' on EdCity home page or share activity info on 'Event Calendar' • Reach hundreds of thousands of EdCity members and expand businesses through collaborating with EdCity • Co-build education ecosystem by standardisation of data format and retrieval

Steps for Member Registration

Click 'Login/Register' on the top right corner of EdCity website, then choose 'Register'

Teacher Members	School Members	Public / Parent Members	Corporate Members
<p>Individual Teacher Accounts</p> <ol style="list-style-type: none"> 1. Follow the instructions to register and activate your individual account 2. Go to 'Settings' to add and edit personal information; then click 'Be a Teacher' Information'. Under 'Please select teacher type', tick 'Registered Teacher @ EDB (verification with e-Services Account)'. Fill in the information, then submit 3. Log in to the e-Services email to receive confirmation email. Follow the instructions to complete the procedure <p>School-based Teacher Account Please refer to the 'School Member' column</p>	<p>School administrator creates teacher and student accounts by batch via 'School Accounts Administration System':</p> <p>School-based Teacher Account</p> <ol style="list-style-type: none"> 1. Go to the system and click 'Upload Teacher Account List' under 'School-based Teacher Account' 2. Create and upload a file with teacher account details 3. Teachers log in to their school emails to receive confirmation emails and activate accounts <p>Student Account</p> <ol style="list-style-type: none"> 1. Go to the system and click 'Upload Student Account List' under 'Student Account' 2. Create and upload file with student account details 3. Distribute the account information to students for them to enjoy EdCity services 	<ol style="list-style-type: none"> 1. Follow the instructions to register and activate your account 2. Go to 'Settings' to add and edit personal information 	<ol style="list-style-type: none"> 1. Submit 'EdCity Corporate Member Application Form' and related documents online 2. Receive confirmation email and activate your account

After login, subscribe to EdCity updates in 'Settings':

1. EdPost (columns specifically for teachers, parents and primary / secondary school students)
2. Email recommendations of events and resources

**Follow EdCity on  &  for the latest updates

Q: What's the difference between 'individual teacher account' and 'school-based teacher account'?

A: The 'individual teacher account' is registered and owned solely by you, and is mainly for teacher professional development; the 'school-based teacher account' is registered by your school for you to use EdCity's school-based services, e.g. the STAR platform, and understand student learning data. Schools will add, delete or update the school-based teacher accounts registered through themselves according to the teaching staff employment status every year.

Promote eLearning Prevalence with Unified Data Format and Platform Specification

School Benefits

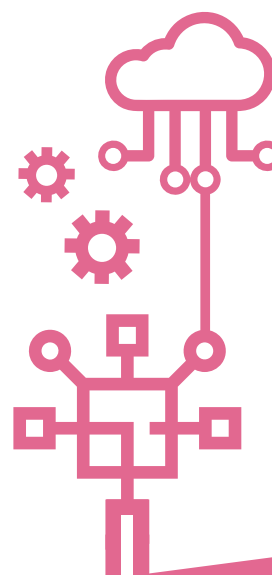

- Update accounts annually in EdCity's 'School Accounts Administration System' for providers to access updated account data through the EdData platform, sparing the efforts of providing account data for different providers
- Systematically approve, edit or reject data access requests for different eResources, and easily authorise providers to access suitable data, thereby protecting personal information
- Access data through the platform instead of manual provisioned data files, thus enhancing data transmission security
- Detailed data transfer records for understanding eLearning implementation progress
- Set school email as EdCity login email for easy management
- Teachers and students can access multiple eResources with one single account, reducing the burden of assigning and using multiple sets of accounts

Provider Benefits

- Send data access requests to different schools through a single platform, sparing the efforts of following up with each school
- Access the latest student data through the platform, which automatically saves all updated data from schools, instead of through manual notifications and updates
- Detailed data transfer records for following up with each school systematically
- Support the latest open authorisation methods, including OAuth 2.0, SAML 2.0 and AppAuth

Workflow of EdData × EdConnect

WaaSchool WiFi Authentication Service

- Log in to school WiFi with EdCity accounts, without having to create an extra set of accounts
- Control WiFi access for designated user(s) and specific period(s) on a need basis
- Control number of devices connecting to the WiFi network for each user at a time

WiFi Testing Tool (edcity.hk/waaschool/content/testing-tool)

- Evaluate WiFi network performance by simulating an authentic classroom environment (service open to all schools)
- Online reservation for testing available for school staff (edcity.hk/schoolservices/wifi/booking)
- Conduct the test(s) on your own or together with the network service providers

Teacher Professional Development

Facilitating professional and inspirational exchanges by bringing education experts and teachers together to share strategies and discuss hot educational topics such as innovative education, eLearning and inclusive education

Professional Platform for Educators Worldwide to Share Education Insights and Experiences

- One of Asia's leading annual education shows with professional seminars, workshops and exhibitions
- Introduce the latest education trends and EdTech to facilitate innovative learning and teaching
- Free admission for educators and industry stakeholders
- Serve as a school's teacher professional development programme, with school staff attendance report available by request
- Provide teachers with up to 24 hours of Continuous Professional Development (CPD) hours

Keynote Presentations

World-class scholars and experts foster professional exchange on hot education topics

Seminars

Share insights into crucial topics including Innovative Education, eLearning, Special Educational Needs, STEM Education, Early Childhood Education, Vocational and Professional Education, Tertiary Education, etc.

Open Lessons

Experienced teachers demonstrate how to implement innovative learning and teaching in different subjects

Staff Development Day

Support Teacher Professional Development Services with EdCity's Services

- Illustrate EdCity services and demonstrate ways of integrating them into learning and teaching activities
- Tailor-made sharing content
- Presentation or workshop format
- Events can be conducted via webinars or in-person visits according to the need of the schools

Practical Strategies and Resources

Teaching Strategies

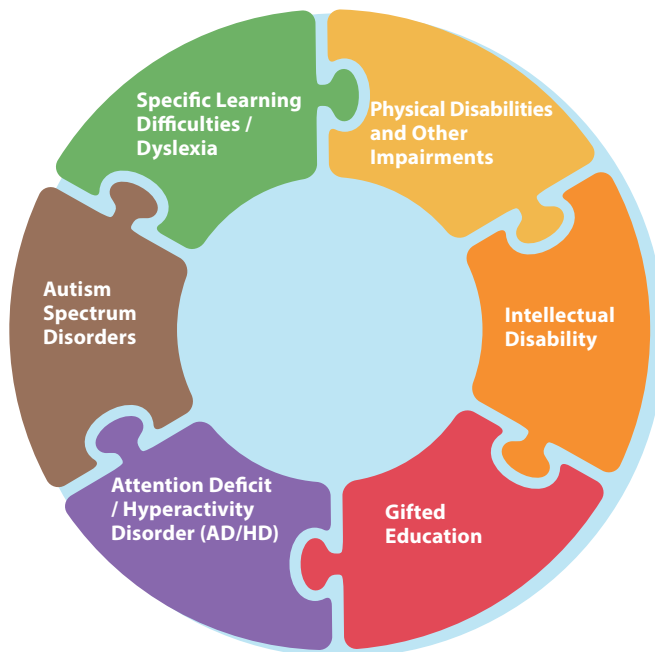

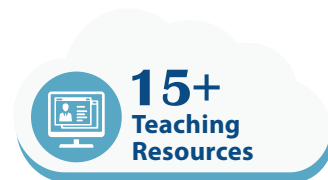

- 'Wise Tips for SEN' for mainstream and special schools co-developed with the Centre for Special Educational Needs and Inclusive Education, The Education University of Hong Kong
- Regular thematic seminars for teachers and parents, focusing on both theory and practice

SEN Resources

- eTeaching kits for students with different SENs and learning characteristics
- Case studies and tips shared by experienced schools

Learning Games

- 'Smart Arcade' with games for different academic subjects and brain development
- Executive functions training games co-developed with the MA programme in Professional Educational Psychology, Faculty of Education, The Chinese University of Hong Kong
- Adjusted game levels and interface catering for specific needs of students with SEN

Honouring Teachers for Their Professional Achievements in Innovative Education

- A recognised education award
- Honour teachers who have successfully actualised innovative education and improved effectiveness in learning, teaching and assessment by effective use of technology supported by education theories and innovative pedagogies
- Gather teachers who are dedicated to promoting innovative education to actualise future ready education
- Foster development, professional exchanges and sharing to build an innovative education community

Event Calendar

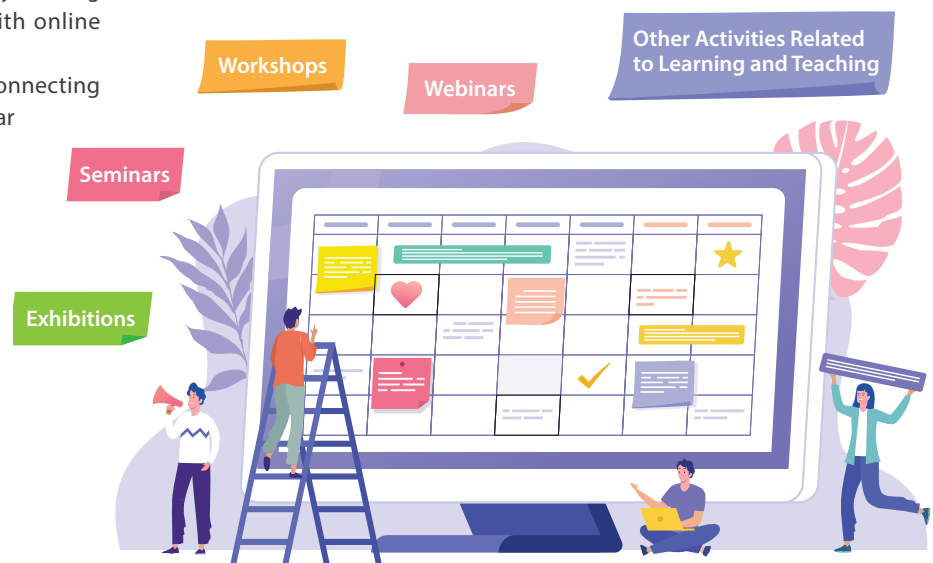

Information of Local Education-related Activities

Easy Searching of Events

- Search by categories such as learning area, target, nature and date
- 'Hot Categories' highlighting events in popular themes, including STEM and SEN
- Compatible with different devices and browsers

Easy Scheduling

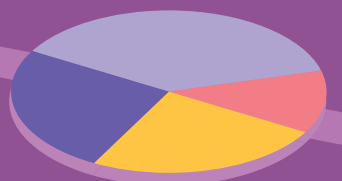

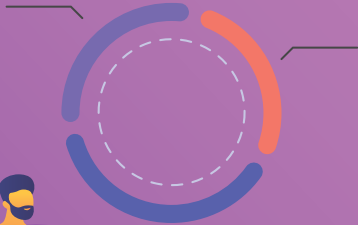

- Registration made easy by linking individual event page(s) with online registration system
- Convenient scheduling by connecting with personal online calendar

Learning, Teaching and Assessment Resources

Gathering local and overseas resources to support teachers to implement innovative and diversified education strategies, such as Assessment for Learning, Virtual Learning Environment (VLE) and blended learning, to shape a student-centred teaching model and enhance learning and teaching effectiveness

Cloud-based Virtual Learning Environment for Effective Learning, Teaching and Assessment

Level : P1 - S6

Subject : All Learning Areas and Interdisciplinary Subjects

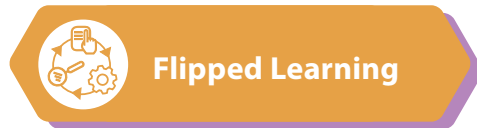

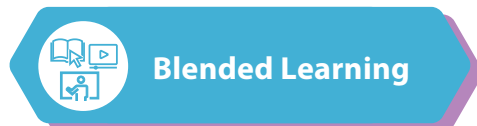

Open Standard Virtual Learning Environment/Learning Management System

- Flexible for teachers to design and carry out diversified learning, teaching and assessment activities
- Various assessment question types, such as multiple choice, matching and fill in the blanks
- Interactive feedback to students by text, image or recording
- Detailed learning data for reference and further analysis
- Teaching resource repository shared by teacher community
- Web and app versions available with all data secured in the cloud
- Adoption of open standard to enable resource import / export from different sources
- Free for individual teacher or whole school to apply to meet specific needs

Interdisciplinary Subjects

Learning Tools

Go AI

Promote AI Education for Future Ready Generations

Level : P4 - S4

- Facilitate the popularity of innovative education in Hong Kong by introducing resources and tools with the latest innovative technology and pedagogies
- Assist teachers and students to acquire AI knowledge and 21st century skills
- Foster professional exchanges among AI solution providers and build a teacher community

- Python Fundamental
- Image Recognition and Understanding
- Artificial Neural Network
- Voice Recognition Fundamental
- Natural Language Processing

One-stop Portal Inspiring Lesson Preparation and Instructional Design

Level : P1 - S6

Subject : All Learning Areas and Interdisciplinary Subjects

Quality Learning and Teaching Resources

- Quality resources from experienced teachers, universities, the Education Bureau, government bodies and NGOs, including EDB One-stop Portal for Learning and Teaching Resources (edcity.hk/edbosp) and Educational Multimedia (emm.edcity.hk)
- Teaching plans, worksheets, multimedia resources, assessments, books, etc. available for teachers to enrich their lessons
- New tabs to filter the source of resources: 'All Resources', 'EDB Resources' and 'EdCity Resources'
- Narrow search results by applying multiple filters such as Key Learning Area, Key Stage and keywords
- One-click share button to copy link or repost to social media

Featured Resources:

STEM Resource Packages from Faculty of Education, The University of Hong Kong (Keyword: Science Education), Hong Kong Observatory Educational Resources (Keywords: Hong Kong Observatory Educational Resources), Academy of Chinese Studies Resources (Keywords: 燦爛的中國文明)

Online Assessment System Covering Basic Competency and Full Curriculum

Level : P1 - S3

Subject : Chinese Language, English Language, Mathematics (Chinese and English questions available)

Diversified Online Assessment Items

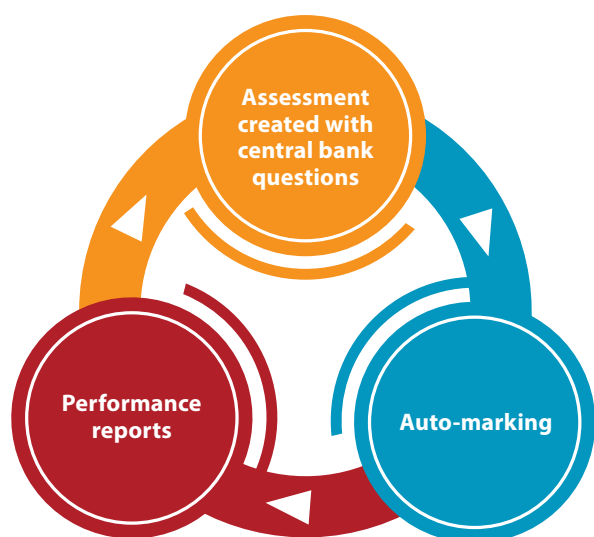

- Assessment questions are designed according to 'Basic Competency' (BC) of different Key Stages, and progressively extending the coverage to 'Full Curriculum'
- Central item bank for teachers to select questions and create assessment tasks
- Assessments created can be shared with other teachers
- Auto-marking system provides students with instant feedback, easing administration work
- New open-ended questions and manual marking function for more diversified assessment content
- Compatible with different devices and browsers

Performance Reports for Analysis

- 'Possible mistakes and misconceptions' for teachers to easily identify students' learning difficulties
- Link up with EDB's 'Web-based Learning and Teaching Support' (wlts.edb.edcity.hk) website for teachers to follow up with students' progress
- Downloadable reports for further analysis
- Reports can be shared among teachers within the same school for them to understand their students' progress
